

Ms. Allen's 6th Math and Science Update Week of October 22-23, 2018

Thank you for coming out to open house. It's always a pleasure to meet parents and guardians.

MATH	SCIENCE
<p>The students took a quiz on Module 1, Topic B on Friday 10/26. The students who got less than a 70% can retake their quiz on Tuesday 10/23 or Thursday 10/25 afterschool if they bring a permission slip signed by the parent/guardian.</p> <p>We are following the advanced, rigorous curriculum of Engage NY. Students will begin Topic C, from ratios to rates...</p> <p>You can follow the lessons online at https://www.engageny.org/resource/grade-6-mathematics-module-1-topic-c-overview</p>	<p>In Earth Science we started the year by taking a brief tour of the biosphere, focusing on the amazing abilities of producers. Now we will begin our unit on the Hydrosphere. To introduce the unit we will be talking about the ocean and the importance of plankton in food chains and in the creation of oxygen in our atmosphere.</p> <p>We are now in the middle of our plankton design in class; using everyday materials and testing our plankton designs for neutral buoyancy in the water against other classmates.</p>
