

November 16, 2018

Dear Northwestern 3rd Grade Families,

We have had a very exciting couple of weeks and are looking forward to the Thanksgiving holiday. You will find some details below and if you have any questions please call or email me.

Daily 5 is Language Arts

Our language arts (reading, writing, and word study) time is organized using a program called Daily 5. Each day students get to choose if they will read to themselves, work on writing, study words, listen to reading, or read with a friend. Ask your 3rd grader what they are reading and

Measurements in Math

We are studying metric units of measure in Math class. One of the important skills that we are working on is knowing the type of unit to use to measure different things. If you are doing any cooking for the holiday, ask your 3rd grader to check packages to find grams, kilograms, milliliters, and liters.

Family Math and Literacy night!

We will have a Math and Literacy family night at the school on November 28 from 4:00 until 6:00. There will be dinner served, fun games, and lots of prizes.

Important dates:

November 21, 22, 23- Thanksgiving holiday
November 28 Math and Literacy night

Sincerely,

Mr. Mitchell
